

**M6472 Storage World** is an existing storage facility in Woodstock, Ontario where an additional 5,400 Sq. Ft. of unheated drive-up storage building was added. The 1:12 double sloped roof and all steel construction is an economically attractive alternative to the existing block wall and asphalt shingled roof buildings. A gentle slope on site dictated that the new building include two steps in the foundation and roof line.

### Project Information:

- Storage World, Woodstock, Ontario
- [www.storageplace.ca](http://www.storageplace.ca)
- 1 unheated 30' x 180' storage building
- 1:12 double sloped thru-fastened roof
- 2" WMP-50 Metal Building Insulation in the roof
- Janus Model 650 roll up doors with filler panels
- Two 8" steps in the roof line for sloped site
- Structural components are made from Galvanized G-90 material, providing enhanced protection

38 McBrine Place, Unit #6, Kitchener, Ontario N2R 1G8
